## **Personal Care Facilities in Butler County - Choosing a Personal Care Home**

In Pennsylvania, personal care homes provide a place to live for many elderly and disabled persons. The location, capacity, monthly rates and services provided to residents vary from home to home. In general, personal care homes provide safe, secure environments for individuals who require supervision and assistance with activities of daily living, but who do not need the services of a licensed long-term care nursing facility. Personal care homes provide 3 meals daily and "personal care services," which can be defined as assistance with or supervision of such activities as dressing, bathing, diet, socialization, general supervision, financial management, evacuation in emergency situations, and administration of medications.

Personal care services are basically the same in both Personal care Homes and Assisted Living Communities. The different terms were devised as a marketing tool to differentiate between the variations in housing options. Personal Care Homes are generally small, privately owned facilities where four to six people live. Assisted Living Communities are one or more large buildings that house hundreds of consumers. Both types of housing will provide personal care services. Both housing types permit consumers to exercise choices and freedoms such as meal selections, bringing in furniture, and activities in and out of the building.

The Pennsylvania Department of Public Welfare (DPW) must license any personal care homes housing four or more unrelated adults. The homes are inspected and monitored by the Department of Public Welfare on a regular basis according to the provisions of Personal Care Home Licensing Regulations. They are completely surveyed (inspected) once a year with unannounced visits at other times throughout the year. Personal care homes are also inspected by the Pennsylvania Department of Labor and Industry to ensure the safety of each building for the residents and the staff.

Most personal care homes are privately owned and operated for profit. Some are managed by non-profit or church related organizations. Others are a distinct part of a larger facility, which also provides intermediate and/or skilled nursing care.

Neither Medicare nor Medicaid funds are available to pay for the costs of a personal care home. However, a financial supplement is available to very low-income consumers who also have limited resources. Eligibility for the Personal Care Home Supplement is determined by an assessment of the individual's health and functional status and a review of the resident's financial resources. Application for the supplement must be initiated by the facility and should be discussed with the facility administrator.

Veterans who have served during the war and their surviving spouse may qualify for a supplemental pension that will offset the cost of personal care. Most admission coordinators of the personal care community can discuss this with you. You may also contact the Veteran's Affairs office in Butler at 724-282-5352.
